Clarity Enhanced (F1)

Item Description: Three (3) green carved oval cabochons in a multi-strand necklace with a gray and yellow metal clasp, gray metal mountings and numerous stones of various colors and cuts.

Weight: 42.55 grams (gross)

Measurements: 11.76 x 9.03 x 7.79 mm to 11.94 x 9.14 x 5.26 mm

Comments: Only the three (3) green carved oval cabochons were tested.

Any statement on geographic origin is an expert opinion based on a collection of observations and analytical data. Due to their growth conditions in nature and recovery methods, most emeralds contain surface reaching features. For this reason, clarity enhancement is a common trade practice.
